SIR

Subject Re the grant of a loan of 15000/- to Malavalli Town Municipality for the formation of an extension

In forwarding herewith in original the report of the President Municipal Council Malavalli together with its enclosures on the above subject I have the honour to state that the Director of Public Health who inspected Malavalli town on the 24-8-40 has observed that the houses in the Bestagere of the town are densely crowded and the locality is greatly congested (copy enclosed) He has opined that this worst slum of the town and the congestion could be removed only by acquiring the area During my personal inspection of the Town I have also found that it is not possible to improve the sanitary conditions of this locality as houses have been built in all possible ways without any thing of an alignment and it is impossible to effect any improvement at present to admit of free air and light In furtherance of the schere of slum clearance the Municipal Council Malavalli have resolved at their meeting held on 29-10-40 that the marginally noted items of work calculated to improve the present condition of the town might be taken up urgently The estimated cost of these works is reported to be Rs 15000/- and the Municipality in its present financial position cannot meet this expenditure

1	For acquiring 26-33 guntas	Rs 3000
2	Cost of sites formation	Rs 4000
3	For the extension of the A K Colony and for the formation of sites by acquiring the S Nos on either side of the Haddur-Sivasamudram Road(S Nos 566 569)	Rs 3000
4	For slum clearance	Rs 5000
	Total	Rs 15000

to

Co sequent on the development of Irwin Canal Irrigation in Alavalli Taluk the town is rendered considerably unhealthy necessitating adoption of preventive measures immediately The Malarial Survey of the town recently conducted has shown that the disease has already made its appearance

As a first step in the prevention of this scourage and as also the improvement of the general health of the town the clearing of the slum and forming of decent extensions - should be undertaken immediately The Municipal Council have therefore resolved to approach Government for grant of a loan of Rs 15000/- repayable in (ten) 10 annual instalments

The President has reported that there is keen demand for sites and that about 1000/ has been realised by sale of sites during the years 40-41 and that if the proposed extensions are formed a sum of 10000/ might be realised by sale of sites The Council hope to repay the loan out of the realisations from the sale of sites and from taxes which would be levied consequent on the formation of the extensions

The statement of income and expenditure of the Municipality enclosed herewith shows that the income of the Municipality has - increased and the closing balance for the year 40-41 is is 4851-9-10 ~~4810~~ With the development of Cotton and Tobacco cultivation in the Taluk the town is bound to achieve greater commercial importance and in effect the income of the municipalit would increase The Municipal Council may not therefore find the difficulty in - repaying the loan applied for

I therefore recommend that a loan of is 15000/ repayable in ten annual instalments may kindly be sanctioned to this municipality

I have the honour to be

Sir

Your most obedient servant
